

Project Manager

Division: Project Management | Location: Oxford

Faradion Limited is a leader in the development and commercialisation of next generation environmentally sustainable rechargeable batteries. It has established research and development facilities at two UK sites, Oxford and Sheffield, has a growing IP portfolio and a committed team of scientists and engineers.

At Faradion we build the right teams in the right way. We're a bold decision-making team who want to be the best at what we do, who are committed to excellence and helping our people grow by creating specialised, focused and hardworking teams. Teams who apply critical thinking, and who are always striving to achieve excellence in the work they deliver. We look for entrepreneurial thinkers and doers. Innovative, collaborative and motivated people who are excited by our technology, and proud of the difference they can make.

About the Role

This is an exciting opportunity in our rapidly expanding Product and Applications Team for a Project Manager. You will be responsible for the successful delivery of multiple projects, developing battery products to customers worldwide.

You will have:

- A degree in an engineering or science discipline.
- At least 3 years project management experience, ideally in the development of electrical or electronic products.
- Knowledge of Project Management fundamentals including agile and waterfall project management methodologies.
- Proven ability to manage and deliver complex tasks in a fast moving and dynamic technical environment.
- An analytical mind-set, attention to detail and ability to challenge assumptions and convention.
- Experience of delivering projects in a technical environment.
- A broad understanding of Product Development.
- Integrity and assertiveness, willing to communicate all relevant information and hold teams to account to deliver.

performance

- Excellent communication, influencing and relationship building skills.

You will be:

- Expected to take ownership for the successful delivery of Programme(s) of projects aligned with core company objectives and ensure the successful delivery of cell and battery products to customers and associated technology development.
- Expected to ensure the successful delivery of multiple projects for the development and delivery of battery products to customers.
- Expected to develop detailed project plans to guide clients, staff members and project teams and revising based on changing needs and requirements.
- Self-motivated and able to resolve conflict, inspire teams, mentor peers.
- Expected to compile and submit project status reports to clients, management and other stakeholders.
- Expected to effectively capture lessons learned and drive continuous improvement initiatives and development of PM capability.
- Expected to work independently, with little guidance.

What's in it for you...

At Faradion, we're passionate about creating a forward-thinking, dynamic work environment. Our employees are our greatest asset, and we're dedicated to fostering an atmosphere that is not only rewarding and stimulating but also enjoyable.

Beyond the fulfilment of contributing to critical projects that make a tangible impact on the world, we provide a host of benefits designed to complement your professional journey with us:

- Competitive salaries
- Market leading Salary Exchange Pension (up to 10% Faradion contribution from a 5% contribution from you)
- Group Life Assurance (5 X basic annual salary)
- Income Protection Insurance
- Generous annual leave allowance (25 days holiday, plus 8 days bank holidays)
- Healthy extras – a comprehensive employee assistance programme
- Annual leave buying and selling scheme
- Birthday leave
- Free fresh fruit
- Incredible opportunities for development and career growth
- Eye care vouchers
- Exclusive discounts with leading retailers
- Employee social events
- Wellbeing ambassadors
- Casual dress

In line with our company values, we are looking for someone who:

- Demands the highest levels of safety, has a 'safety first' approach, through passion and pride and always challenges the status quo (Safety & Wellbeing for all)
- Has a responsive, 'can do' attitude. Someone who is flexible, co-operative and has an enthusiastic attitude to work. We're candid in calling out actions that work against our values and culture (Commitment)
- Will challenge the norm to make a difference. Be passionately curious and thrive on change and continuous improvement. Be an independent thinker and take ownership for their own development, capacity to grow and knows no boundaries (Innovation)
- Can work collaboratively and inclusively, acting with integrity and takes responsibility for past actions, admit mistakes and will work to fix them. (Collaboration)
- Always acts responsibly and with integrity, treat others well, trusts and can be trusted, is candid and honest (Integrity)
- Applies critical thinking, and who are always striving to achieve excellence in the work they deliver (Excellence)
